

BALMORAL

PREMIER EXPANDING SECURITY GRILLES

The Balmoral is a UK manufactured, high security expanding grille, which has passed stringent 'attack' tests by an independent testing body, and has received the LPCB Level 1 award.

- The Balmoral is similar to the Excalibur, however it incorporates a range of **additional features for increased security.**
- Additional features include a steel bottom track, steel top cowl, additional brackets and nylon components for **added protection.**
- The rivets are made from stainless steel and are pneumatically pressed for **greater hold.**
- A Multipoint locking system, which is designed with the user's protection in mind, offers **maximum security** and includes anti-drill inserts and protection against saw attack.
- Nylon components between moving parts ensure **smooth and quiet operation.**
- The grille can be **folded to the side** to form a neat curtain when it is not in use.
- The grilles are powder coated prior to assembly to ensure maximum coverage and are available in a **wide range of colours.**

Variable Options

- The bottom track can be removable or hinge up, in order to allow for easy access. Alternatively it can be fixed.
- Curtains can be folded to either side (Single Stack), both sides (Double Stack) or fixed.
- A full cylinder lock is available, allowing key access from both the front and back of the grille, ideal for doorways.
- Curtains can be folded to either side (Single Stack), both sides (Double Stack) or fixed.
- Sizes range from 500mm to 6000mm wide and from 650mm to 3046mm high.
